Cerniera superiore Upper hinge

REGOLAZIONI CERNIERA SUPERIORE UPPER HINGE ADJUSTMENT

La regolazione **1** è necessaria per poter installare la porta con i 2 elementi del sistema 9900 già incassati

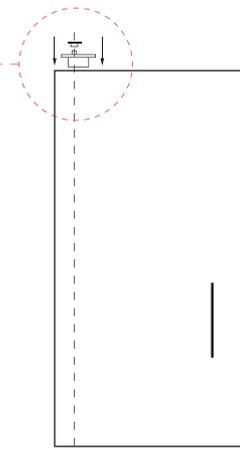

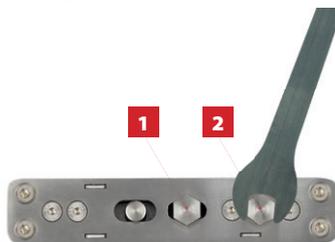

Adjustment **1** is required for installation of the door with the 2 elements of system 9900 already embedded

La regolazione **2** permette di regolare il parallelismo della porta rispetto al pavimento e al soffitto

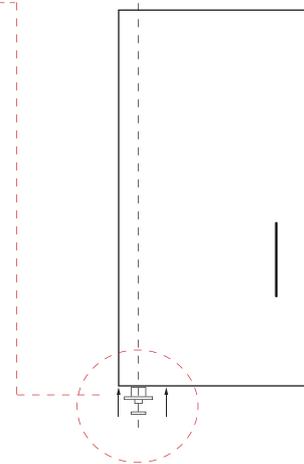

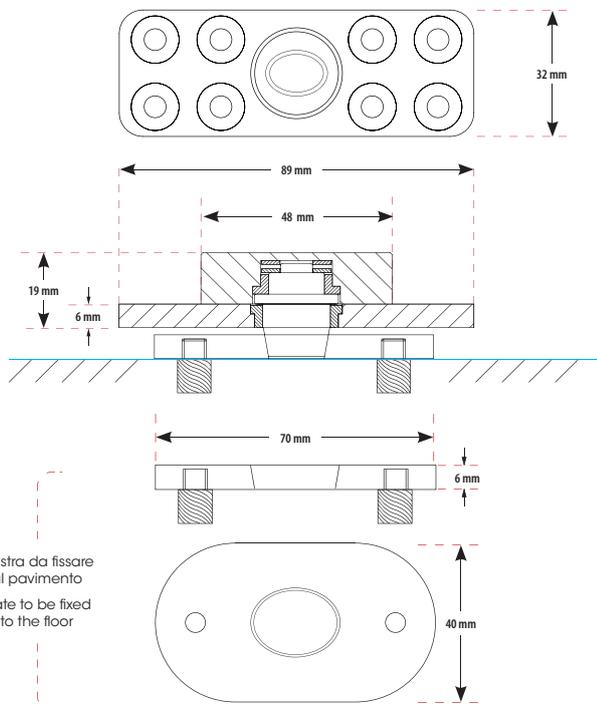

Adjustment **2** allows you to adjust the parallelism of the door to the floor and ceiling

Queste regolazioni si effettuano con la speciale chiave esagonale fornita in dotazione e permettono il corretto allineamento della porta installata.

These adjustments are made with the special hexagonal key, supplied with the hinge and allow to align correctly the installed door

Cerniera inferiore Lower hinge
